A published inventory of archival holdings of Jewish records in the various repositories in Ukraine and Poland. Four of the leading record search firms that regularly do research for clients in the Ukraine have provided an inventory of Jewish records. Some 400 towns are represented from all over Ukraine. Many record types are described including vital records, census (*reviskii skazki*), school records, community listings, and much, much more. Each entry for a specific town shows the record type, years covered, record group number and in which archive the records are located. Names and addresses of the archives as well as the record search firms are given.
